PACE of Northeast Indiana

Meet Hallie! (pronounced Haley).

I'm the social work intern for PACE. I'm a senior at PFW and am majoring in human services. I will be with PACE until May, and I can't wait to meet all the participants!

Favorite food: Mac and cheese

Favorite genre of music: Rock

Fun fact: It wasn't until this summer that I got stung by a bee for the first time. It took 21 years for it to finally happen.

Hey Friends! Would you like to share your talents by teaching a class? Talk to Lorie in Activities to be added to the upcoming calendar!

Falling for Autumn I love autumn, but as I get older, I prefer to see the leaves fall-not myself!!

Feathered Friends: What did the turkey say to the computer? Google, google, google**!**

~ Important Announcements ~

Onsite Services

Dental, vision, and podiatry services are available onsite for participants. These appointments are scheduled based on the provider's recommendation and when you are due for routine care. Onsite services are not available on demand. If you are experiencing a concern or believe you need to be seen, please let a staff member know so they can notify the clinic and help arrange appropriate follow-up.

Clinic Needs

If you have a clinic need or concern, please tell **one staff member**. The staff member will add your concern to a notification for the clinic team. The clinic will review the information and follow up as needed. Please remember that clinic concerns may not always be addressed the same day. The clinic team will determine the appropriate follow-up based on the urgency and nature of the concern. We appreciate your patience and will work to make sure your needs are addressed.
